## Western Lake Superior Sanitary District

January 10, 2022

Minnesota Pollution Control Agency  
520 Lafayette Road North  
St. Paul, Minnesota 55155  
ATTN: Discharge Monitoring Report

Dear Regulatory Authority,

This cover letter is a summary of Western Lake Superior Sanitary District's Wastewater Treatment Plant Report for December 2021 (as per NPDES/SDS permit MN0049786). An electronic copy of this month's report will be submitted to MPCA. If anyone would like a paper or electronic version of the attachments please contact WLSSD at (218) 722-3336.

The average daily flow to the plant in December was 31 MGD.

The average influent cBOD5 concentration was 203 mg/L and the average effluent concentration was 5.8 mg/L. The cBOD5 removal efficiency for the month of December was 97 percent. The average influent and effluent suspended solids concentrations were 225 mg/L and 3 mg/L, respectively, providing a monthly suspended solids removal rate of 98 percent.

For the month of December, the effluent phosphorus calendar month average concentration was 0.2 mg/L and the average mass was 23 kg/d, compared to the respective calendar month average limits of 1.0 mg/L and 115 kg/d.

For the month of December, the effluent's daily maximum mercury concentration was 2.3 ng/L and the monthly average was 1.7 ng/L. WLSSD's NPDES permit which expired May 31, 2021, stipulated mercury discharge limitations of 5.8 ng/L for the calendar month average, and 7.4 ng/L for a daily maximum. In milligrams per day, the calendar month average limit was 1062 and the daily maximum limit was 1355. For the month of December, the calendar month average mercury was 191 mg/d, and the daily maximum was 261 mg/d.

WLSSD proactively submitted a notification letter to the MPCA on May 6, 2021 that identified and discussed the NPDES/SDS permit compliance challenges it faced meeting mercury limits without a variance.

Page 2

January 10, 2022

In December, non-wastewater releases of foam occurred from 2 manholes. The release reports are attached.

In December WLSSD determined that the flow-pacing signal to the final effluent composite sampler required adjustment. The adjustment has been completed and is detailed in the attached letter to MPCA.

The submittal contains: a Sample Values Spreadsheet, DMR Calculated Values Spreadsheet, 4<sup>th</sup> Quarter Report, a release report and a letter regarding adjustment to a composite sampler.

Sincerely,

A handwritten signature in black ink, appearing to read "Marianne Bohren". The signature is fluid and cursive, with a long horizontal stroke at the end.

**BACKGROUND**

As you may recall, the City identified a leak at the pool at the Essentia Wellness Center. We previously requested the Utility Commission to apply a “sod discount” for one month because we knew that the water had not gone through the sewer.

We have subsequently looked at this with a broader view to see the water usage by the Y at the Essentia Wellness Center. In December, we presented the attached to the City Council. Based on that discussion, we have asked the contractors and architects for additional information regarding the leak and the repairs. We also discussed the possibility of being reimbursed the cost by the contractor.

You should know that the City Council did discuss and did not rule out the possibility of providing an additional credit to the Y for the leak. No final decision has been made at this point

Dear Hermantown Community Leader:

The decision to make price adjustments is always a difficult one as we know when we raise prices, we lose customers. However, the fees we pay to retransmit local broadcast stations like ABC, CBS, FOX and NBC as well as regional and national sports networks continue to grow rapidly. In addition, supply chain challenges and labor shortages experienced over the past year have resulted in significant inflationary pressure across our business.

In addition to the above rate changes, Mediacom will also be making some programming changes on or about December 31, 2021. Che News will be launched on the Sports & Information Digital Pak in most markets. Also, NBC Sports Network will be shut down by NBC Universal and, as a result, will no longer be available on the Variety TV tier. Most of the programming previously available on NBC Sports will be transitioned to USA Network which will continue to be carried on the Variety TV tier in most markets. Finally, ESPN Classic is being discontinued by The Walt Disney Company, and will no longer be available on the Sports & Information Digital Pak.

On or about January 1, 2022, Mediacom will be implementing the following programming changes and rate adjustments:<sup>1</sup>

Product:	Old Rate:	New Rate:	Net Change:
Local Broadcast Station Surcharge <sup>2</sup>	\$21.86	\$22.51	\$0.65
Regional Sports Surcharge	\$7.66	\$8.81	\$1.15
Local TV <sup>3</sup>	\$29.95	\$40.00	\$10.05
Essential TV <sup>4</sup>	\$69.95	\$80.00	\$10.05
Variety TV <sup>5</sup>	\$86.99	\$100.00	\$13.01
Digital Gateway <sup>6</sup>	\$4.00	\$0.00	(\$4.00)

<sup>1</sup> Depending on the terms of each customer's promotional package, these rate changes may not impact a customer until their current promotional package expires.

<sup>2</sup> Mediacom bills monthly in advance. As a result, the increases for both the Local Broadcast Surcharge and Regional Sports Surcharge are based on our best estimate of the cost increases our company will incur for broadcast and regional sports programming. Mediacom will "true up" customer bills in a subsequent month if it turns out that our estimate was too high or too low.

<sup>3</sup> New rate for Local TV includes primary digital adapter, digital receiver, DVR or TIVO receiver.

<sup>4</sup> New rate for Essential TV includes primary digital adapter, digital receiver, DVR or TIVO receiver.

<sup>5</sup> New rate for Variety TV includes primary digital adapter, digital receiver, DVR or TIVO receiver.

Primary <sup>7</sup> Digital Adapter	\$7.00	\$0.00	(\$7.00)
Primary Digital Receiver	\$10.50	\$0.00	(\$10.50)

Primary TiVo Receiver	\$10.50	\$0.00	(\$10.50)

**SUBJECT:** Brian Williams Sewer Discount

**Agenda Item:** 7a

---

## REQUESTED ACTION

Request approval of a sewer discount in the amount of \$2,075.68.

---

## BACKGROUND

Brian Williams had an abnormally high November & December reading. Public works went to property at 5222 Lavaque Jct Rd. on 11/22/2021 and discovered that a garden hose had been left out in the back yard and the nozzle had froze and broke off. This has affected two billing cycles. Water was flowing full blast into the back yard resulting in water usage of 156,200 gallons for November and then 53,100 gallons for the December cycle. Average usage is 2400 gallons per month. Staff recommendation is to give a sewer credit for the difference from the average usage.

$153,800 / 1000 = 153.8 * \$10.15 = \$1,561.07$

$50,700 / 1000 = 50.7 * \$10.15 = \$ 514.61$

Total Sewer Discount Requested: \$2,075.68

Brian Williams

5222 Lavaque Junction Rd

Hermantown, Mn 55811

In reference to my water and sewer bill for November of 2021, my little girl was cleaning out her dogs kennel last month and spraying it down with the hose. Apparently when she was done she forgot to turn off the water and the hose must have frozen and split the end of the hose with the sprayer on it and let the water spill out into our yard and woods. After finding this information out today, I will no longer let my 13 year old daughter be in charge of shutting off the hose when she is done using it. I apologize for missing this and for allowing the water to be run out into my yard. I guarantee this will never happen again. If there is any way of getting some help on this I would greatly appreciate it. Even if they could help me with the sewer part of the bill I would certainly appreciate any help. If there are any questions please call me at 218-729-7548 any time after 7am. Thank you for your help, Brian Williams and I apologize again for missing this.

---

**REQUESTED ACTION**

**Approve Public works and City engineer to move forward with an RFP for the purchase of AMI water system radios and related accessories**

---

**BACKGROUND**

As part of the 2022 and 2023 Capital improvement plan (PW&U22-005) there has been provisions to switch our water-meter radios over to an AMI System. This is the newest, latest, last gen technology that will give us water usage data rapidly. This will require the City of Hermantown to change out +/-2100 existing M type radios to the AMI radios. Install 3 towers for transmission of the information. This also includes the software to integrate with our Black Mountain billing software.
